ECSR
Comprehensive Waste Management Services
ECS&R provides Homeowners with several options for the safe and economical disposal of Household Hazardous Waste and E-Waste. Leftover household products such as paints, cleaners, oils, batteries, and pesticides that contain potentially hazardous ingredients require special care when you dispose of them.

Household Hazardous Waste (HHW) and E-Waste Collection

Environmental Coordination Services and Recycling, Inc. (ECS&R) is an industry leading diversified company offering integrated environmental, health, and safety service solutions. We offer full service consulting solutions, training services, waste management program design, implementation and disposal solutions for household, universal, hazardous and residual waste. For more information on central HHW and E-waste collection sites, drop-off and pick-up locations provided by ECS&R please call 1-866-815-0016.

Examples of HHW include:
- Cleaning Supplies
- Old Medications
- Lightbulbs
- Batteries
- Paint
- Paint Thinners
- Gasoline
- Lawn Care Products
- Pool Chemicals
- Lighter Fluid
- Glues and Adhesives
- Motor Oil
- Computers, Monitors and Televisions

What is HHW? AND... What is the Danger?

Household Hazardous Waste (HHW) is any item consumed by households that contain hazardous chemicals or materials. HHW items are identified with warning labels that include: DANGER, WARNING, TOXIC, CAUTION, POISON, FLAMMABLE, RE-ACTIVE AND/OR CORROSIVE. Remember, HHW is hazardous to our environment and public health. Not only is it extremely dangerous, but it is also illegal to store or dispose of it improperly.

How can you dispose of HHW properly?

Follow the instructions on the product label for use and storage to prevent accidents at home and improper disposal. Check with your state, local health or environmental agency for HHW management information along with proper disposal or collection sites available in your area.
